

# Impaired Driving Impact Panel of Island County Keeping you "In The Loop" / September 2010

**MISSION:** to deter driving under the influence and underage drinking in our communities through education and awareness

Dear Partners in Prevention,

According to the Washington Traffic Safety Commission, the summer months produce the highest number of DUI-related traffic deaths in the entire year. Labor Day weekend is one of Washington's deadliest holidays, averaging more than seven deaths each year, the commission says.

Law enforcement agencies throughout Island County will be participating in a Labor Day DUI and traffic safety emphasis patrol aimed at preventing highway injuries and deaths.

Help to Keep It a Safe Summer. Remember, you can use your cell phone when driving to report a possible DUI.

And be sure not to miss our FREE 3rd Annual

\*\*\* NASWI NEWS \*\*\*

Another big turnout for our base panel. Kudos to VAQ-135 and VQ-1 for completing this potentially life-saving safety training. The next IDIPIC panel has been reserved by NASWI for 22SEP10, 0930-1200. Seating for plenty more at the station theater. Call or email JoAnn Hellmann (672-8219 / [idipic@idipic.org](mailto:idipic@idipic.org)) if you'll be sending more than 20 to ensure seating. Personnel should know they are to attend the entire panel. /// If that date doesn't work, there's one more panel your command can reserve to attend before end of September. For more info visit our site at <http://idipic.org/> and click on [PANELS: NASWI](#) on left side of page.

Thank you to the many volunteers from NAS Whidbey, Munro's Driving Instruction, How's My Driving School and IDIPIC for manning the Fatal Vision course and our booth; to OHPD and OHFD for coordinating and delivery of the traffic cones and the golf cart, and NAS Whidbey Island Gallery Golf Course for supplying the golf cart.

**CHILDREN'S DAY / LANGLEY / SEP 25 / 10am-2pm**

SW Community Park / Maxwellton Rd. Come man IDIPIC table for an hour or two -- FREE LUNCH. 672-8219
